海创产品在设计师的精心设计下拥有丰富的美感、色彩、多变的造型，可以营造独特的空间氛围，满足不同的审美需求。在原有的实用性上增加了审美感和时尚感，成为个性空间的缔造者。同时海创铝扣板系列全部采用绿色环保建材，通过国家权威实验室检测，完全符合室内绿色装饰要求。在追求绿色环保的大潮中，体现对生活的无限关爱。

Histrong products, under the elaborate design of stylists, have variety of styles, colors and models, presenting glamorous atmosphere and satisfying different aesthetic needs. Practicability combined with taste and fashion creates unique individual space. Meanwhile, Histrong aluminium panel series are made of environment-friendly material, which is checked up by national level labs, totally satisfying green interior decoration needs and exhibiting Histrong's great concerns on customers' individual life.

Alloy technology rhythm of life

ALUMINUM 合金科技 | 奏响生活的乐章

海创铝合金板融合了行业的尖端技术和多年的生产经验，具有极高的技术含量。海创注重产品的技术研发，与浙江大学、浙江工程学院等院校及研究机构保持战略合作关系，借鉴院所强大的人才资源研究新技术，使铝合金板材的品质有了出色的保障，成为国内同类产品中的佼佼者，并在不断的发展中探索完善产品性能。

Histrong aluminum alloy panels are the products of technology, merging advanced technology with its abundant production experience. Histrong attaches much importance to the technological R&D of products, establishing long-term collaboration with Zhejiang University and Zhejiang Engineering College, which guarantees the superior quality of aluminum alloy panels, and enables Histrong to stand out in the business and improve its product performance.

海创铝合金板正，和铝和PVC装饰材料都具有雄厚的实力，拥有从科研、保固、生产等各个环节及引进世界最专业加工设备及国际最先进生产、生产全副实现计算机自动化控制，以确保工艺、精湛的技术和专业的生产。

Histrong has profound competitiveness in the field of integrated ceiling, panel and PVC decoration material. With the state-of-the-art professional processing equipment and production lines imported from the South Korea, Germany and Taiwan, all the production work is computerized and automated. Histrong is renowned for its advanced technique and superior production technology among the counterparts.

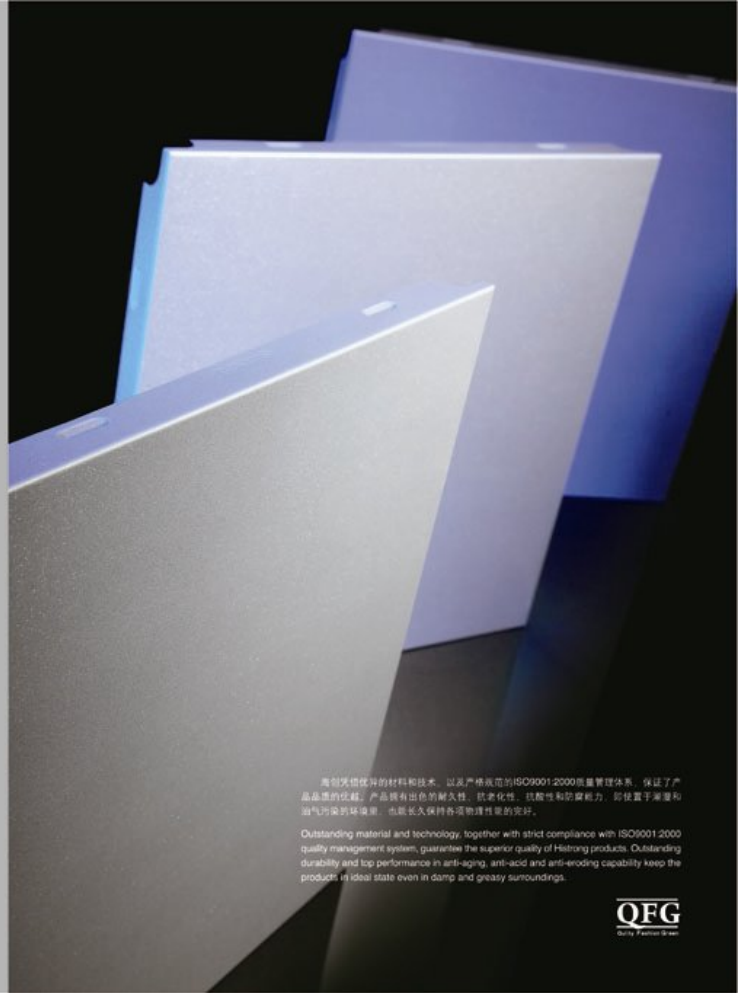

一块板材的背后蕴藏了一整套工艺和多份责任。

海创的板材经历了出角、压型、压边等7道工序，才与客户见面。在这个过程中，每一道工序的精工操作，让产品保持着精湛的工艺。

One single panel burdens with multiple responsibilities and an advanced technics.

Seven working procedures are adopted before delivery. Crowned technics is presented by the fine work in every procedure.

铝扣分类 Classification of Aluminum Panel

产品特性 Product Features

铝扣分类 / Classification	序号	产品特性 / Product Features
覆膜板 / Overlaid Panel	1	覆膜铝扣板的表面有一层PVC膜，就是运用进口PVC膜与复合彩色涂料复合而成。
	2	表面花纹色彩丰富，营造多种色彩感和层次感，让简单的空间变的跳跃起来。
	3	该产品还具有抗菌、耐污染、方便清洁等优点，是在厨房、洗手间等场所应用的理想产品。
铝涂层 / Roller Coating Panel	1	铝涂层有厚薄、光泽和背涂层。
	2	背涂层主要起到防锈化的作用，使其寿命更长。
	3	可以有效控制铝材的平整和平整度，让整个吊顶平整无缺，达到抗平微震选择的完美品质。
抗刮系列 / Anti-scratch Series	1	表面运用专业漆，具有抗刮、抗磨、防水等特点，适合潮湿高，环境相对较复杂的空间。
	2	角部的专业漆是针对特定环境所研制的，不同于普通的油漆。
	3	该产品对于复杂的环境有良好的稳定性，比一般的产品具有更强的稳定性和实用性。
透光系列 / Matte Series	1	透光系列铝扣板表面覆盖了一层透光膜，用内嵌的色粉来保证主人喜爱的品质。
拉丝系列 / Anti-scratch Series	1	拉丝系列铝扣板表面用机械摩擦的方法加工出纹路。
	2	膜上的保护层以材料保持金属的物理属性，具有与铝一样的品性。
	3	防氧化的保护层，也牢牢的保护产品的每一个缝隙，让吊顶耐用性而渗透每个角落。

Histrong aluminum alloy panels, easy to mount, keeps functional units and panels on a flat surface, which displays a smooth and delicate effect, presenting you a mirror surface ceiling.

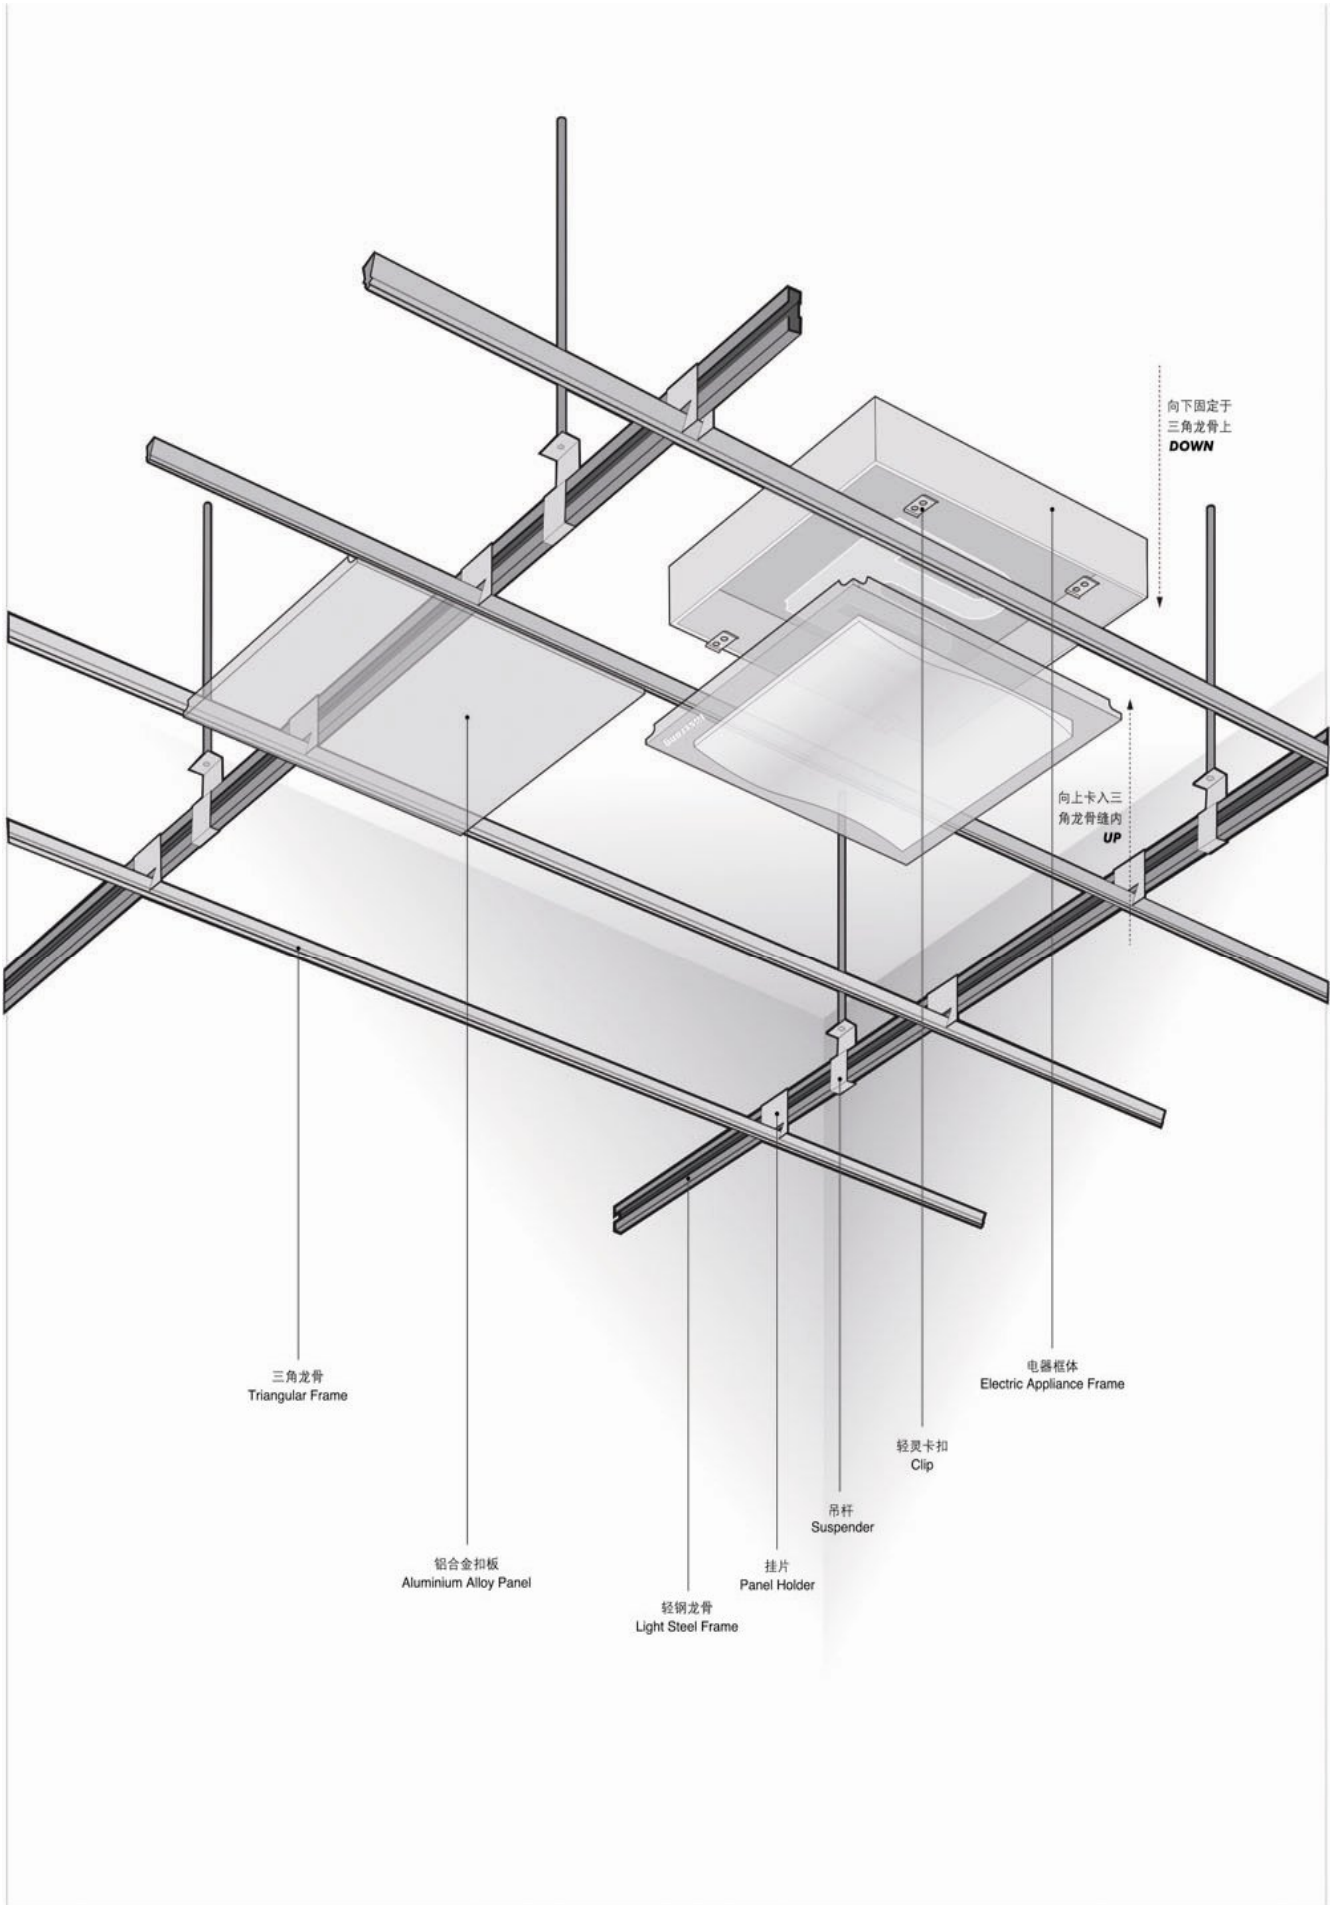

Mounting Procedure

铝扣金能吊顶安装步骤

1. 精确测量安装面积，做好安装准备。
2. 安装吊钩。
3. 打磨连接处，漆料补平。
4. 安装吊钩，吊钩间距适当。
5. 把安装好吊杆的三角龙骨垂直吊钩固定并垂直于吊钩垂直下方。
6. 将铝扣板入三角龙骨槽中，调整平整度。
7. 安装电器。
8. 调整平整，漆料补平。

1. Measure ceiling area to get ready.
2. Mount the side decoration frame.
3. Fix the suspension and hang the suspender.
4. Mount the hooks and hang the light steel frame.

现代技术 | 温暖的幸福

生活是一种艺术，只有懂得欣赏的人才能品味出味道。高创的取暖模块让生活充满醉人的温暖。产品均采用高强度合金铝材精工而成，质感好，不易变形，是新型的环保材料，还具有优良的抗氧化性能，较难与空气中的氧分子产生化学反应，从而延长了面板的使用寿命。产品采用三灯一挂的悬挂排列，克服了传统散热器高温积聚的问题，增加光热面积，提升灯罩效果，节能环保，即使在寒冷冬日，也能给您舒适的温暖。

Life is an art only for those who knows how to appreciate it. Histong heating unit bathes you in cozy warmth. It is made of extra hard aluminum alloy material, environment-friendly and superior in quality with excellent anti-oxidation, which naturally prolongs the use of panels. Three heating lamps are set up on a line, overcoming the problem of unevenly distributed heat in traditional heat radiators, which extends the radiating area, improves heating effect and saves energy. Even in a severe winter, Histong heating unit may present you cozy warmth.
